

Innovation & Creativity for Managers

Length: 1 Day

Summary: Businesses are constantly looking for innovative ideas that will put them one step ahead of their competitors. In order to arrive at a truly new idea, a team leader or manager must understand how to manage the innovation process. This course offers effective managerial strategies that address the organizational aspects of managing a creative team, supporting that creativity, moving an idea to implementation, and troubleshooting ideas to help guide a team through the innovation process.

Course Objective: You will identify how a creative team works and what your role is as team leader. You will explore how to lead a creative team from idea to implementation and how to troubleshoot problems in the innovative process.

Target Student: Any manager or team leader who wants to guide a team of creative individuals to maximum productive innovation

Performance-Based Objectives: Upon successful completion of this course, students will be able to:

- Manage the creative environment.
- Examine the process of moving from idea to implementation
