

SharePoint Outline for Administrators

Length: 3 Days

Summary: This course will introduce the audience to SharePoint Online Administration in Office 365 and explain and demonstrate the configuration options for SharePoint Online. The course is appropriate for existing SharePoint on-premises administrators and new administrators to Office 365 who need to understand how to correctly setup SharePoint Online for their company. The course will also help SharePoint on-premise administrators understand the differences between SharePoint on-premises and SharePoint Online.

Who Should Attend: This course is designed for Administrators who need to setup, configure and manage SharePoint Online as part of their Office 365 Administration.

After attending this training, you will be able to:

- Understand the architecture of SharePoint Online
- Have knowledge of all the components in SharePoint Online
- Have on hands on experience configuring the components of SharePointOnline

COURSE CONTENT
