

Word 2016 Advanced

Length: 1 Day

Summary: This course you will learn: how to use advanced editing tools, use reviewing features and different views, utilize the search and replace tools in Word, learn to use and modify tables in documents, and work with columns.

Who Should Attend: Microsoft Word 2016 combines a powerful word processing application with the user-friendly atmosphere of Windows. Training participants will learn the basics of creating, editing, and saving documents in our Fundamentals level class. They will learn to use Online Help and to modify and enhance character appearance. Participants will format text into tabular columns, create and manage tables, use error-checking tools, and control page layout with margins, indents, and page breaks.

Experience Needed: Delegates should have an understanding of any of the following operating systems: Windows 7, Windows 8, Windows Server 2008 R2, or Windows Server 2012.
