

## Comprehensive Introduction to Microsoft PowerApps

**Length:** 1 Day

**Summary:** Microsoft PowerApps gives you the ability to create powerful business apps that run on phones, tablets, and browsers, and pull data from over 200 sources, including Salesforce and integrated Microsoft products. In this course, we will explore how to leverage PowerApps to turn an Excel workbook into a simple business app that can be used on a mobile device or in a browser.

**At the end of the course, you will know how to:**

- Signing up for PowerApps
- Creating an app with PowerApps Studio
- Editing the layout
- Applying themes
- Publishing an app
- Using PowerApps
- Sharing apps

**Audience:** This course is intended for anyone who use tools such as SharePoint & Excel that want to learn how to build mobile-enabled forms with no code.
