

HAZWOPER DOT 8 Hour Refresher

Length: 1 Day

Course Description: This course meets the training requirements of 49 CFR (Code of Federal Regulations) Part 172.704 covering the transportation and shipment of hazardous materials and hazardous wastes. Understand and demonstrate knowledge and competency in: regulatory general awareness, function specific training requirements, regulatory compliance with the HMR, safety in personal protection, emergency response actions, accidents involving hazardous materials, use of the DOT Emergency Response Guidebook (ERG), shipping papers, Safety Data Sheets (SDSs), Hazardous Materials Table (HMT), management of empty containers, proper placarding and labeling, security awareness, materials segregation and manifesting requirements of hazardous wastes.

What Is HAZWOPER 8-Hour Training? If you remove hazardous wastes or are exposed to hazardous substances at your job and need to meet annual training requirements, our 8-Hour HAZWOPER Refresher course is perfect for you. The course reviews all the materials required by OSHA 29 CFR 1910.120.

You'll get an overview of a variety of topics, such as personal protective equipment, decontamination, confined space entry, medical surveillance, and standard emergency procedures. You will also learn how to recognize hazards to ensure you're prepared to respond to dangerous conditions.

Additionally, the course provides essential information on how to properly handle and dispose of hazardous waste, in case it's necessary within the course of your job or because of an unexpected emergency.

Who Should Take the 8-Hour HAZWOPER Refresher? This training serves as an annual refresher for all employees, regardless of whether or not you previously completed 40-Hour HAZWOPER training or 24-Hour HAZWOPER training.
