

## AI for Improved Decision-Making

**Length:** 1/2 Day

---

### COURSE CONTENT

Apply AI prediction models and data analysis to gain unique insights that lead to better and faster decisions. At the end of this course, you'll be able to:

- Explain how AI can be used for data collection and analysis
- Test using AI tools to streamline your data analysis process
- Generate reports on your own data using AI tools
- Evaluate AI outputs for accuracy and consistency
