

## Using AI Writing Assistants for Faster Content Creation

**Length:** 2 Hours

---

### COURSE CONTENT

Discover AI writing tools like chatbots and natural language processing that can help create drafts, reports, emails and other documents faster.

- Use generative tools to brainstorm, outline, draft, review, edit, and improve text and written documents
- Develop effective prompts to get the output you want from generative AI
- Monitor and check the results of your prompt to avoid AI “hallucinations”
